**CONNECTING YOU TO YOUR BUSINESS**

**TURBOPRO**

## ABOUT TURBOPRO

Since its inception in 1991, TurboPro Software has established itself as a groundbreaking tool in the business world. Created by Plan & Spec manufacturer's reps for Plan & Spec manufacturer's reps, it embodies a deep understanding of the industry's unique needs and challenges. TurboPro acts as your virtual office, enabling you to work efficiently from anywhere in the world. This eliminates the reliance on internal staff for managing business processes, offering unparalleled freedom and flexibility.

### JOB MANAGEMENT

With TurboPro, users can track jobs from conception to completion. This includes the initial decision-making phase, the design process involving architects and engineers, managing bids, quoting materials, sales follow-up, procurement, setting up commissioned employees, submitting orders, receiving vendor bills, and creating customer invoices.

#### KEY BENEFITS:

Streamlines the entire job management process, enhancing efficiency and ensuring seamless project progression.

### ORDERING

#### SALES ORDERS

Create warehouse orders from walk-in traffic or as part of an ongoing job.

#### DROP SHIP

Facilitates ordering material from manufacturers, sending it directly from the factory to a job site or client's warehouse.

#### FACTORY COMMISSIONS

Manage and track orders within a job, even when not directly billing the client.

#### BILL ONLY

Allows for additional billing to the client after all materials for a job have been ordered.
